General troops under command of Prince Leopold, 70 years old, stormed the outer and inner fortifications of the Russian stronghold on both banks of the Vistula river and entered Warsaw yesterday. As soon as the Russian of the great event was reported, the city, the telephone wires were cut down, and the Russian troops were ordered to leave the city.

Immediately after the news was confirmed, the Berlin streets resounded with an ocean of their hostile waving flags.

GREAT RECEIVING OVER TEUTON SUCCESSES

Zurich, Switzerland, Aug. 6 (via London, 8 p. m.).—Dispatches from Vienna state that the public manifestation of joy over the fall of Warsaw, which were interrupted by the news of the occupation of Lvov by the Teutons, had succeeded in its purpose, since the outbreak of the war. Public buildings and private houses were decorated with flags and crowds thronged the streets.

The Ringstrasse in front of the ministry of war was blocked by people cheering the armies of the central allies. The demonstration continued until the early hours this morning.

According to private reports from Berlin the calling up of the untrained landwehr, between the ages of 42 and 45, in various towns, generally met with vigorous opposition.

CONFERENCE ON MEXICO AGREES UPON PRINCIPLES TO BE ADOPTED

Chieftains Must Agree Upon Restoration of Orderly Government Guaranteeing the Rights of All Factions.

NO DIFFERENCES OF OPINION ARE DEVELOPED

Pressure to Be Brought to Bear Upon Carranza and Villa at Once by Concert of Powers.

PRESIDENT KEEPS IN CLOSE TOUCH WITH LANSING

Washington, Aug. 6.—(Special Telegram.)—The pan-American conference, considering means to restore peace in Mexico, adjourned today after having developed no divergence of opinion as to its general purpose, but leaving undecided the exact course to be pursued. It will reconvene in New York probably by early next week.

Meanwhile the Latin-American diplomats will communicate with their governments and Secretary Lansing will confer with President Wilson. Two days of conferences and hearings reports have brought all the participants in accord with President Wilson's general plan which is based on the fact that the great majority of the people of Mexico desire peace, which is to be achieved by the restoration of the Mexican government to its normal condition.

General Form of Appeal. It was reported tonight that the general form of the final appeal to the Mexican people, which was prepared by the conference and approved by the president, was taken up by Mr. Lansing and it was said to be in a draft of the appeal tonight in consultation with Secretary Lansing, who has kept in close touch with the Mexican situation.

To Eliminate Military Leaders. While all the participants are in sympathy with the president's plan to induce the military factions to enter another peace conference and have identified their willingness to cooperate with the president's plan, the South American are not sanguine of success unless some way can be found for elimination of the military leaders and recognition of all classes in Mexico.

It is realized that these are questions of vast moment, when considered in the light of Mexico's international obligations and the responsibilities of the nations which are preparing to sponsor her rehabilitation, that they cannot be dismissed lightly, but must be the result of deliberation.

Scott to See Villa. Foremost is the extent to which the claims of the military chiefs shall be considered and the extent to which they can be arranged. One development which emphasized that feature was the dispatch tonight of Major General Scott, chief of staff of the army, to the Mexican border to confer with General Carranza.

The war department refused to comment on General Scott's mission and it was said there that any statement would be made by the state department. After the conference between General Scott and Secretary Lansing and Acting Secretary Breckinridge of the war department, it was said the general was going to readjust the American forces in the light of recent developments.

Centificos Considered. Another point in the extent to which the business and industrial element, sometimes called the centificos, must be taken into consideration. It is urged in their behalf that most of them have been identified with any military activity.

No official announcement was made of the proceedings today and the participants declined to discuss details of their deliberations. Some, however, had no hesitancy in saying that there had been progress and that they liked the general plan of the American government.

Those Who Participated. In the conference today were Secretary Lansing, Paul Fuller, President Wilson's unofficial adviser in Mexican affairs, and the diplomatic representatives of Argentina, Brazil, Chile, Bolivia, Uruguay and Guatemala.

The convicts were being taken back to prison after a day's work in the fields. They saw the engine in time to jump to safety, but thought the guards in the automobile would not understand the situation and begin firing.

London, Aug. 6 (10:40 p. m.).—The Amsterdam correspondent of the Exchange Telegraph company sends the following: "A Berlin dispatch states that General von Kessel, military commander of Berlin, ordered a salute of sixty 'victory shots' fired at noon in honor of the taking of Warsaw."

Chicago, Aug. 6.—(Special Telegram.)—An advisory committee of twenty-four representatives of all lines of industry to aid the tariff commission in the work of formulating a program for an export commission to adjust the tariff on a business basis has been organized today.

These are John Mitchell, bank leader and chairman of the state industrial commission of New York, E. L. Cullen, agricultural commissioner of Kansas, A. P. Grant, Illinois, president of the National Alfalfa Growers' association, Warren S. Stone, president of the Brotherhood of Locomotive Engineers, W. D. Hoard, former governor of Wisconsin, and Mrs. Samuel B. Smith of Tiffin, Ohio, first vice president of the National Federation of Women's clubs.

England Is Warned of Serious Condition

RUSSIANS LEAVE ONE POWERFUL FORTRESS FOR TEUTONS TO TAKE

Whole Line of Vistula River Evacuated Except Entrenched Camp of Novogorodsk.

SIEGE EXPECTED TO BE LONG AND DIFFICULT

Military Experts Are Wondering if It Will Crumble Under Big Guns as Did Steel Turrets of Belgium.

Novogorodsk is situated at the junction of the Vistula, Narew and Wkra rivers to the northwest of Warsaw. It has two powerful bridge heads, eight citadels and seven-four redoubts containing eleven and twelve-inch batteries. It is calculated by military observers here that an army corps could hold out there for many months as the camp is protected by massive earthworks, which doubtless have been enlarged and improved since the Russians were compelled to begin their retirement.

The laying of siege to Novogorodsk may prove one of the most interesting operations of the war, as it doubtless will show whether other cities are less susceptible to the fire of high explosives than are cupola forts.

SHIPS NOT YET ENRICHED

Of the retreating Russian armies, the official reports say nothing. The Russians, however, destroyed bridges over the Vistula and took other means to place obstacles in the path of their pursuers, while others of their forces continue to offer stubborn resistance to the Germans and Austrians south and north who are trying to force a ring around them.

The general opinion here is that the Russians continue their retirement in time to escape this inner ring, but they have yet to reckon with the wider outflanking movement from Lomza, which, if successful, would turn the first Livovsk line.

RUSSIANS REPORT GAINS ON ALL BATTLE LINES

Vienna, Aug. 6 (via London, Aug. 7, 1:21 a. m.).—The following official statement has been issued here: "Southwest of Lvov our allies have made progress. Between the Vistula and the Bug rivers the pursuit battles continue."

FUNSTON SAYS TEXAS MUST QUIT BANDITS

San Antonio, Tex., Aug. 6.—The United States army, through General Funston, has refused to send more troops to the Rio Grande valley, acting on the belief of officers that the banding bands are made up of Texas citizens with at least 50 per cent Tex-born Mexicans and that their depredations are not offenses against the government, but purely matters for the state government to set upon.

In case of attempt to cross the Rio Grande, with arms, the federal authorities announce, they, through the army, will take action.

Deficit Shown by Argentina. Buenos Aires, Aug. 6.—The government today placed before the chamber of deputies a report for 1914 which shows expenditures of \$241,000,000 and receipts estimated at \$201,000,000.
